Rosetta Stone.

Welcome to Rosetta Stone Language Lessons

Our most comprehensive solution provides everything you need to communicate in your new language and connect with others. Rosetta Stone Language Lessons creates a carefully crafted immersion environment where you learn to speak a new language quickly and confidently.

Language Training
Learn naturally and speak immediately. Step by step, you'll connect using new language directly to the world around you. You'll work through a carefully designed sequence of screens that include speaking, listening, reading and writing skills. You'll start speaking from your first lesson, and our proprietary speech recognition technology will guide you toward correct pronunciation. Conveniently, you can access the Language Training from your computer or from your iPad, iPhone, Android phone & tablets, NOOK and Kindle devices using the Learn Language app and an internet connection.

Getting Started with Rosetta Stone

1. Sign In

2. Click **Launch Rosetta Stone Language Lessons Version 3 link.**

3. Start Rosetta Stone program.
4. Set Up your Headset
   a. You'll need to use a microphone- equipped USB headset.
   b. Select the correct microphone from the "Microphone Selection" screen. Click "Continue" once your USB headset is selected.
   c. Speak into the microphone in a normal tone. Say "1, 2, 3, 4, 5." If your setup wasn't successful, click "Repeat Setup" and try again.
   d. Click "Continue" to start your Course, once your microphone is setup properly.
   e. The screen shot below displays the microphone setup screen.

Rosetta Stone Language Lessons Basics

Rosetta Language Training Basics

Rosetta Language Training is the cornerstone of your experience as you learn a language. Rosetta Language Training offers three or five levels, depending on the language. These levels are each divided into four units. Each unit contains four core lessons, which teach new material, and a final Milestone review lesson. Complementing the core lessons are smaller focused lessons that reinforce specific concepts and vocabulary for that unit.

You have completed a unit when there are black check marks on each core lesson and focused activity on the screen. If you do not receive a passing score, you will see a red X over the lesson icon. A lesson marked with a ribbon means that the lesson is still in progress: you can retake or continue an activity at any time. Below are the percentages required to pass each type of activity.
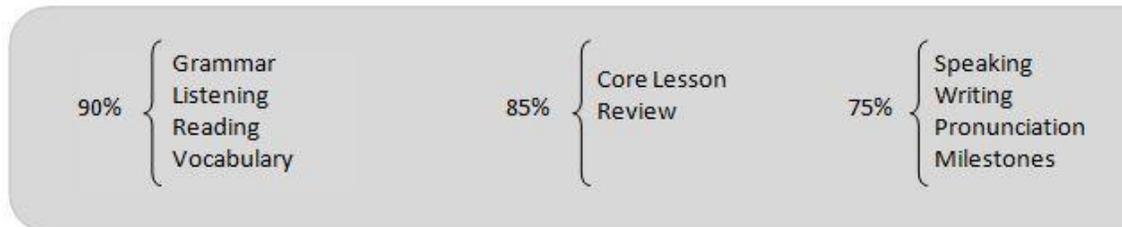

Mobile Device

1. After installing and updating the Learn Languages application, open a web browser on your device and navigate to your organization's LMS or learning portal.

2. Bookmark the URL for your organization's LMS or learning portal.

3. Sign in to your LMS or learning portal and navigate to the launch link for accessing the Rosetta Stone Access Portal.

4. Once you have landed within the Rosetta Stone Access Portal, click "Launch Rosetta Stone" and the Learn Languages application will launch.
